## INSIGHTS

- ▲ Font display — Est savings of 330 ms

URL	Est Savings
asterik.ae <span>1st Party</span>	510 ms
...fonts/fontawesome-webfont.woff2 (asterik.ae)	330 ms
...fonts/fontawesome-brands.woff2 (asterik.ae)	180 ms

## ▲ Forced reflow

A forced reflow occurs when JavaScript queries geometric properties (such as `offsetWidth`) after styles have been invalidated by a change to the DOM state. This can result in poor performance. Learn more about [forced reflows](#) and possible mitigations.

Top function call	Total reflow time
...js/fontawesome.min.js:7:1464355 (asterik.ae)	17 ms
Source	Total reflow time
[unattributed]	13 ms
...js/fontawesome.min.js:6:1448483 (asterik.ae)	17 ms

## ▲ LCP request discovery

Optimize LCP by making the LCP image [discoverable](#) from the HTML immediately, and [avoiding lazy-loading](#) LCP

- ✓ lazy load not applied
- ✗ fetchpriority=high should be applied
- ✓ Request is discoverable in initial document

Modern office building representing enterprise technology transformation

```

```

## ▲ Network dependency tree

[Avoid chaining critical requests](#) by reducing the length of chains, reducing the download size of resources, or deferring the download of unnecessary resources to improve page load. LCP

https://asterik.ae - **198 ms**, 5.65 KiB

/assets/index-BDKpjzr1.js (asterik.ae) - **430 ms**, 97.26 KiB

/assets/index-DBdaU2vh.css (asterik.ae) - **342 ms**, 16.80 KiB

...css/local-fonts.css (asterik.ae) - **356 ms**, 1.99 KiB

...fonts/montserrat-bold.woff2 (asterik.ae) - **745 ms**, 3.32 KiB

...fonts/opensans-regular.woff2 (asterik.ae) - **725 ms**, 3.35 KiB

...fonts/opensans-bold.woff2 (asterik.ae) - **724 ms**, 3.35 KiB

...css/critical.css (asterik.ae) - **337 ms**, 2.46 KiB

...css/performance.css (asterik.ae) - **355 ms**, 2.69 KiB

### Preconnected origins

[preconnect](#) hints help the browser establish a connection earlier in the page load, saving time when the first request for that origin is made. The following are the origins that the page preconnected to.

no origins were preconnected

### Preconnect candidates

Add [preconnect](#) hints to your most important origins, but try to use no more than 4.

No additional origins are good candidates for preconnecting

## Improve image delivery — Est savings of 27 KiB

Reducing the download time of images can improve the perceived load time of the page and LCP.

[Learn more about optimizing image size](#) [LCP](#) [FCP](#)

URL	Resource Size	Est Savings
asterik.ae <a href="#">1st Party</a>	<b>43.8 KiB</b>	<b>27.5 KiB</b>
...downloaded/business-collaboration.webp (asterik.ae)	34.5 KiB	19.0 KiB
This image file is larger than it needs to be (800x600) for its displayed dimensions (536x402). Use responsive images to reduce the image download size.		19.0 KiB
...images/asterik-logo-150.png (asterik.ae)	9.4 KiB	8.5 KiB
Using a modern image format (WebP, AVIF) or increasing the image compression could improve this image's download size.		8.5 KiB

## Render blocking requests

URL	Transfer Size	Duration
asterik.ae <a href="#">1st Party</a>	23.9 KiB	560 ms
...css/local-fonts.css (asterik.ae)	2.0 KiB	70 ms
...css/performance.css (asterik.ae)	2.7 KiB	150 ms
/assets/index-DBdaU2vh.css (asterik.ae)	16.8 KiB	190 ms
...css/critical.css (asterik.ae)	2.5 KiB	150 ms

## LCP breakdown

Each [subpart has specific improvement strategies](#). Ideally, most of the LCP time should be spent on loading the resources, not within delays. [LCP](#)

Subpart	Duration
Time to first byte	0 ms
Resource load delay	180 ms
Resource load duration	200 ms
Element render delay	310 ms

Modern office building representing enterprise technology transformation  

```

```

These insights are also available in the Chrome DevTools Performance Panel - [record a trace](#) to view more detailed information.

## DIAGNOSTICS

### ▲ Reduce unused JavaScript — Est savings of 42 KiB

Reduce unused JavaScript and defer loading scripts until they are required to decrease bytes consumed by network activity. [Learn how to reduce unused JavaScript](#). [LCP](#) [FCP](#)

asterik.ae <span>1st Party</span>	95.5 KiB	41.8 KiB
/assets/index-BDKpjzr1.js (asterik.ae)	95.5 KiB	41.8 KiB

### ▲ Reduce unused CSS — Est savings of 31 KiB

Reduce unused rules from stylesheets and defer CSS not used for above-the-fold content to decrease bytes consumed by network activity. [Learn how to reduce unused CSS.](#) LCP FCP

URL	Transfer Size	Est Savings
asterik.ae <span>1st Party</span>	33.2 KiB	30.7 KiB
...css/fontawesome.min.css (asterik.ae)	18.1 KiB	17.9 KiB
/assets/index-DBdaU2vh.css (asterik.ae)	15.0 KiB	12.8 KiB

### ■ Avoid serving legacy JavaScript to modern browsers — Est savings of 1 KiB

Polyfills and transforms enable legacy browsers to use new JavaScript features. However, many aren't necessary for modern browsers. Consider modifying your JavaScript build process to not transpile [Baseline](#) features, unless you know you must support legacy browsers. [Learn why most sites can deploy ES6+ code without transpiling](#) LCP FCP

URL	Est Savings
asterik.ae <span>1st Party</span>	0.8 KiB
...js/fontawesome.min.js (asterik.ae)	0.8 KiB
...js/fontawesome.min.js:6:1438772 (asterik.ae)	@babel/plugin-transform-classes
...js/fontawesome.min.js:6:1906 (asterik.ae)	@babel/plugin-transform-spread

### ○ User Timing marks and measures — 2 user timings

### ○ Avoid long main-thread tasks — 2 long tasks found

Lists the longest tasks on the main thread, useful for identifying worst contributors to input delay. [Learn how to avoid long main-thread tasks](#) TBT

URL	Start Time	Duration
asterik.ae <span>1st Party</span>		126 ms

/assets/index-BDKpjzr1.js (asterik.ae)

522 ms

52 ms

## Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

### BEST PRACTICES

[\[user-scalable="no"\]](#) is used in the `<meta name="viewport">` element or the [\[maximum-scale\]](#) attribute is less than 5.

Disabling zooming is problematic for users with low vision who rely on screen magnification to properly see the contents of a web page. [Learn more about the viewport meta tag](#).

#### Failing Elements

head > meta

```
<meta name="viewport" content="width=device-width, initial-scale=1.0, maximum-scale=1">
```

These items highlight common accessibility best practices.

### ARIA

Elements use prohibited ARIA attributes

#### Failing Elements

Government and public sector solutions

```
<div class="bg-navy-blue text-white w-16 h-16 rounded-full flex items-center justify-c..."
aria-label="Government and public sector solutions">
```

Financial services and fintech solutions

```
<div class="bg-navy-blue text-white w-16 h-16 rounded-full flex items-center justify-c..."
aria-label="Financial services and fintech solutions">
```

Enterprise organization solutions

```
<div class="bg-navy-blue text-white w-16 h-16 rounded-full flex items-center justify-c..."
aria-label="Enterprise organization solutions">
```

These are opportunities to improve the usage of ARIA in your application which may enhance the experience for users of assistive technology, like a screen reader.

## CONTRAST

 Background and foreground colors do not have a sufficient contrast ratio.

Low-contrast text is difficult or impossible for many users to read. [Learn how to provide sufficient color contrast.](#)

#### Failing Elements

Sample methodology

```
<p class="font-semibold">
```

EXAMPLE APPROACH Banking Cloud Migration: Start to Finish in 2 Weeks How We Wo...

```
<div class="bg-white rounded-2xl p-8 md:p-12">
```

This demonstrates our approach to complex projects

```
<p>
```

EXAMPLE APPROACH Banking Cloud Migration: Start to Finish in 2 Weeks How We Wo...

```
<div class="bg-white rounded-2xl p-8 md:p-12">
```

Services

```
<h4 class="font-bold text-lg mb-4">
```

ASTERIK Strategic Technology Solutions for Enterprise Transformation Services...

```
<footer class="bg-navy-blue text-white py-16">
```

Industries

```
<h4 class="font-bold text-lg mb-4">
```

ASTERIK Strategic Technology Solutions for Enterprise Transformation Services...

### ▲ Links rely on color to be distinguishable. ^

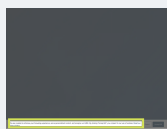

Low-contrast text is difficult or impossible for many users to read. Link text that is discernible improves the experience for users with low vision. [Learn how to make links distinguishable.](#)

#### Failing Elements

Read our Privacy Policy

```
<a href="/privacy-policy" class="text-navy-blue hover:underline m1-1">
```

We use cookies to enhance your browsing experience, serve personalized content,...

```
<p class="text-sm text-charcoal">
```

These are opportunities to improve the legibility of your content.

## NAMES AND LABELS

### ▲ Links do not have a discernible name ^

Link text (and alternate text for images, when used as links) that is discernible, unique, and focusable improves the navigation experience for screen reader users. [Learn how to make links accessible.](#)

#### Failing Elements

div.grid > div > div.flex > a.text-warm-orange

```
<a href="https://www.linkedin.com/company/asterikfzc" target="_blank" rel="noopener noreferer" class="text-warm-orange hover:text-white transition-colors duration-200">
```

div.grid > div > div.flex > a.text-warm-orange

```
<a href="https://x.com/AsterikSocial" target="_blank" rel="noopener noreferer" class="text-warm-orange hover:text-white transition-colors duration-200">
```

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

## NAVIGATION

Properly ordered headings that do not skip levels convey the semantic structure of the page, making it easier to navigate and understand when using assistive technologies. [Learn more about heading order.](#)

## Failing Elements

What we bring to the table:

```
<h4 class="font-bold text-lg mb-4 text-navy-blue">
```

These are opportunities to improve keyboard navigation in your application.

### ADDITIONAL ITEMS TO MANUALLY CHECK (10)

[Show](#)

These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).

### PASSED AUDITS (21)

[Show](#)

### NOT APPLICABLE (30)

[Show](#)

## Best Practices

### TRUST AND SAFETY

- ☐ Ensure CSP is effective against XSS attacks

A strong Content Security Policy (CSP) significantly reduces the risk of cross-site scripting (XSS) attacks. [Learn how to use a CSP to prevent XSS](#)

hashes instead, along with "strict-dynamic" if necessary.

script-src

High

"unsafe-inline" allows the execution of unsafe in-page scripts and event handlers. Consider using CSP nonces or hashes to allow scripts individually.

script-src

High

### ○ Ensure proper origin isolation with COOP

The Cross-Origin-Opener-Policy (COOP) can be used to isolate the top-level window from other documents such as pop-ups. [Learn more about deploying the COOP header.](#)

Description

Directive

Severity

No COOP header found

High

### ○ Mitigate clickjacking with XFO or CSP

The X-Frame-Options (XFO) header or the frame-ancestors directive in the Content-Security-Policy (CSP) header control where a page can be embedded. These can mitigate clickjacking attacks by blocking some or all sites from embedding the page. [Learn more about mitigating clickjacking.](#)

Description

Severity

No frame control policy found

High

### ○ Mitigate DOM-based XSS with Trusted Types

The require-trusted-types-for directive in the Content-Security-Policy (CSP) header instructs user agents to control the data passed to DOM XSS sink functions. [Learn more about mitigating DOM-based XSS with Trusted Types.](#)

Description

Severity

No 'Content-Security-Policy' header with Trusted Types directive found

High

## GENERAL

### ▲ Missing source maps for large first-party JavaScript

Source maps translate minified code to the original source code. This helps developers debug in production. In addition, Lighthouse is able to provide further insights. Consider deploying source

asterik.ae 1st Party

...js/fontawesome.min.js (asterik.ae)

Large JavaScript file is missing a source map
